

We are looking for an active, highly qualified

SOFTWARE ENGINEER (m/f)

STUDENT 20 HRS/WEEK

Ref.Nr. SK50

with the ability to work independently and as a member of a small software development team.

DUTIES AND RESPONSIBILITIES:

- Work on a graphical user interface for our in-house simulation software and data analysis tools
- Continuous improvement and addition of new features
- Manage (internal) user requirement requests, QA testing and bug fixing triage
- Completion of relevant documentation (code, user manuals)

REQUIREMENTS:

- Significant knowledge of Matlab, R, Python, Julia, C#, C++ or similar languages
- Experience in software development
- Basic experience with Linux and Windows operating systems
- Basic experience with version control systems (we use Git)
- Experience in design and implementation of graphical user interfaces
- Nice to have: experience with testing strategies and environments
- Nice to have: experience with working in a scientific environment

WE OFFER

- a multidisciplinary and dynamic research environment and access to highly modern infrastructure on campus of Graz University of Technology,
- options for career development at the academic and industrial level, and
- a competitive salary (min. € 12.600,- gross/year on a 20 hrs per week basis, overpayment - depending on qualification - possible).

We are looking forward to receiving your application by indicating the Ref. Nr. and including a cover letter, your CV and credentials!
