

PAID DIPLOMA/ MASTER'S THESIS

Datamanagement-System for Simulations

Ref.Nr. DA124

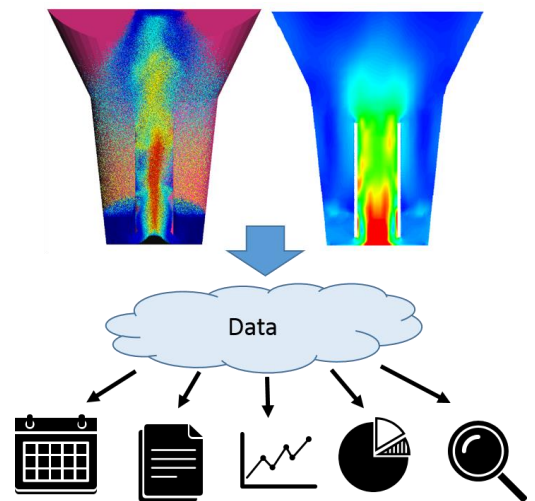

To dedicated students of Telematics, Informatics, Software Development or related disciplines, we offer an opportunity to write a paid Diploma/Master's thesis.

OBJECTIVE:

The aim of the project is to develop a data management software. This software organizes and documents simulations carried out with an in-house code. The student creates a program which allows the user to add various simulations to a project and keep track of the data.

REQUIREMENTS:

- Experience in software development
- Experience with version control systems (e.g. git)
- Good knowledge of some scripting language (e.g. Python)

WITHIN THE FRAMEWORK OF THIS DIPLOMA/ MASTER'S THESIS WE OFFER THE FOLLOWING:

- Extensive participation in a top-level and industrially relevant research project in an international environment
- Supervised training in the task
- Assistance of experienced staff with the implementation of innovative ideas
- Access to highly modern infrastructure on campus of Graz University of Technology
- Assistance with the publication of results
- Adequate compensation and opportunities for personal and professional development

FINANCING: Compensation on the basis of a service contract

If you are interested in writing your thesis at the interface between university research and industry/business and to contribute to the optimization of product and process development in the pharmaceutical industry, please contact us indicating the reference number.
